History and Theory of Architecture I
ARCH 5201:001
Fall Semester 2014
School of Architecture, UNC Charlotte
Instructor: Dr. Lee E. Gray
Email: legray@uncc.edu
Office: 264 Storrs
Office Hours: By Appointment

Description
This course consists of a survey of architecture and architectural theory from pre-history to 1750.

Methodology
Course material will be presented through lectures, assigned readings, and individual student assignments. The evaluation will be based on two interim exams, a final exam, and series of writing assignments culminating in a final research paper.

Texts

Exams
The exams will be composed of essay questions, some questions may require a schematic diagram to supplement the written response. The exams will address all lecture and reading material covered leading up to the exam.

Research Paper
The research paper exercise consists of four steps: a paper topic and initial bibliography, a first rough draft, a second rough draft, and the final paper. The goal is to produce a “model” paper that will serve as a reference for papers required in later courses.

Grading
Exam I 18% A 90-100
Exam II 18% B 80-89
Final Exam 25% C 70-79
Research Paper Topic/Bibliography 3% U 60 & below
Research Paper Draft 1 5%
Research Paper Draft 2 10%
Research Paper 21%
100%

Note
All work is due at the beginning of the class period on the date specified in the syllabus no late work will be accepted. If you are unable to be present for an exam or to turn in an assignment because of a medical or family emergency, you must notify me the day of the exam (or assignment due date) and you must provide some evidence of the emergency (a note from your Doctor, etc.).

Academic Integrity
The School of Architecture fully supports the UNC Charlotte Code of Academic Integrity. All examinations, tests, projects, presentations, homework, and other academic tasks are considered to be each student’s individual work. It is expected that each student will be aware of the UNC Charlotte Code of Academic Integrity and will comply with both the intent and the specifics of that code.
