COMPUTER RECOMMENDATIONS

FALL 2018

Most incoming freshmen prefer to have a personal laptop computer to help them with their studies here in the College of Arts + Architecture at UNC Charlotte. These recommendations are meant to help guide your decision in purchasing a laptop. Students are encouraged to select a computer that works best for their budgets, the coursework they will be expected to complete and any other computer related needs.

In addition to the computers available in the J. Murrey Atkins Library, the CoA+A has computer labs in many of its campus buildings including: **Storrs, Rowe, Macy and Robinson**. Students who purchase an Apple laptop have the option to buy a Windows partition and utilize both Mac and Windows operating systems. NinerTech also carries **external hard drives** which are highly encouraged for students to purchase in order to back-up their work regularly and transfer files between labs and laptops. The university also provides access to **unlimited cloud storage with Google Drive** to all students with a valid UNCC email account.
